

Eniac's Discount Strategy

Eniac's Discount Strategy

Are discounts beneficial?

Eniac's Discount Strategy

Are discounts beneficial?

Marketing Team: discounts $\Rightarrow$ attract customers

Board: *aggressive* discounting $\Rightarrow$

- hurt revenue
- weaken Eniac's position as a *quality-focused* brand

Eniac's Discount Strategy

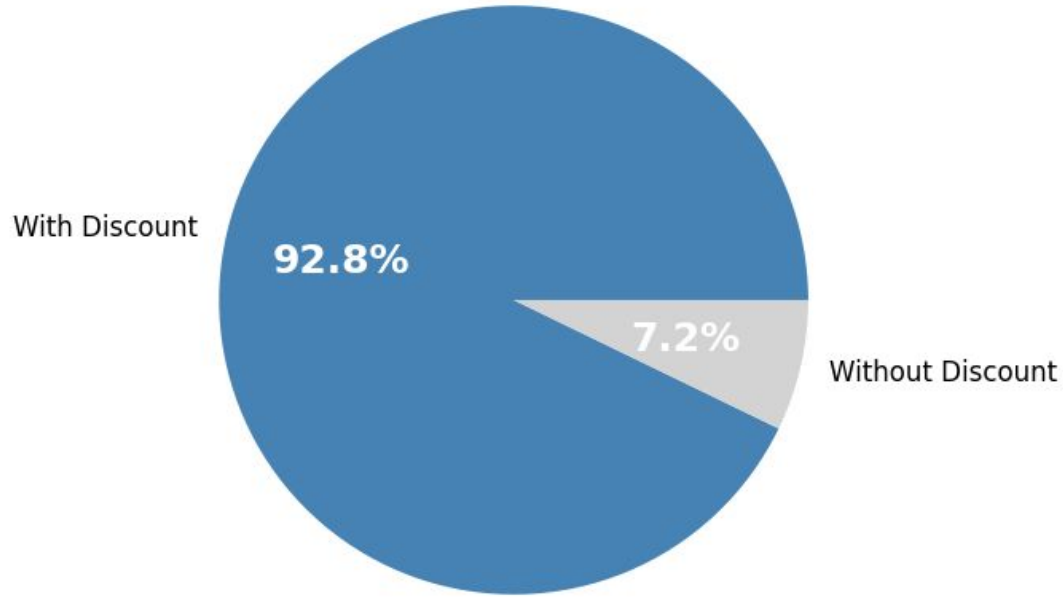

Are discounts beneficial?

Yes!

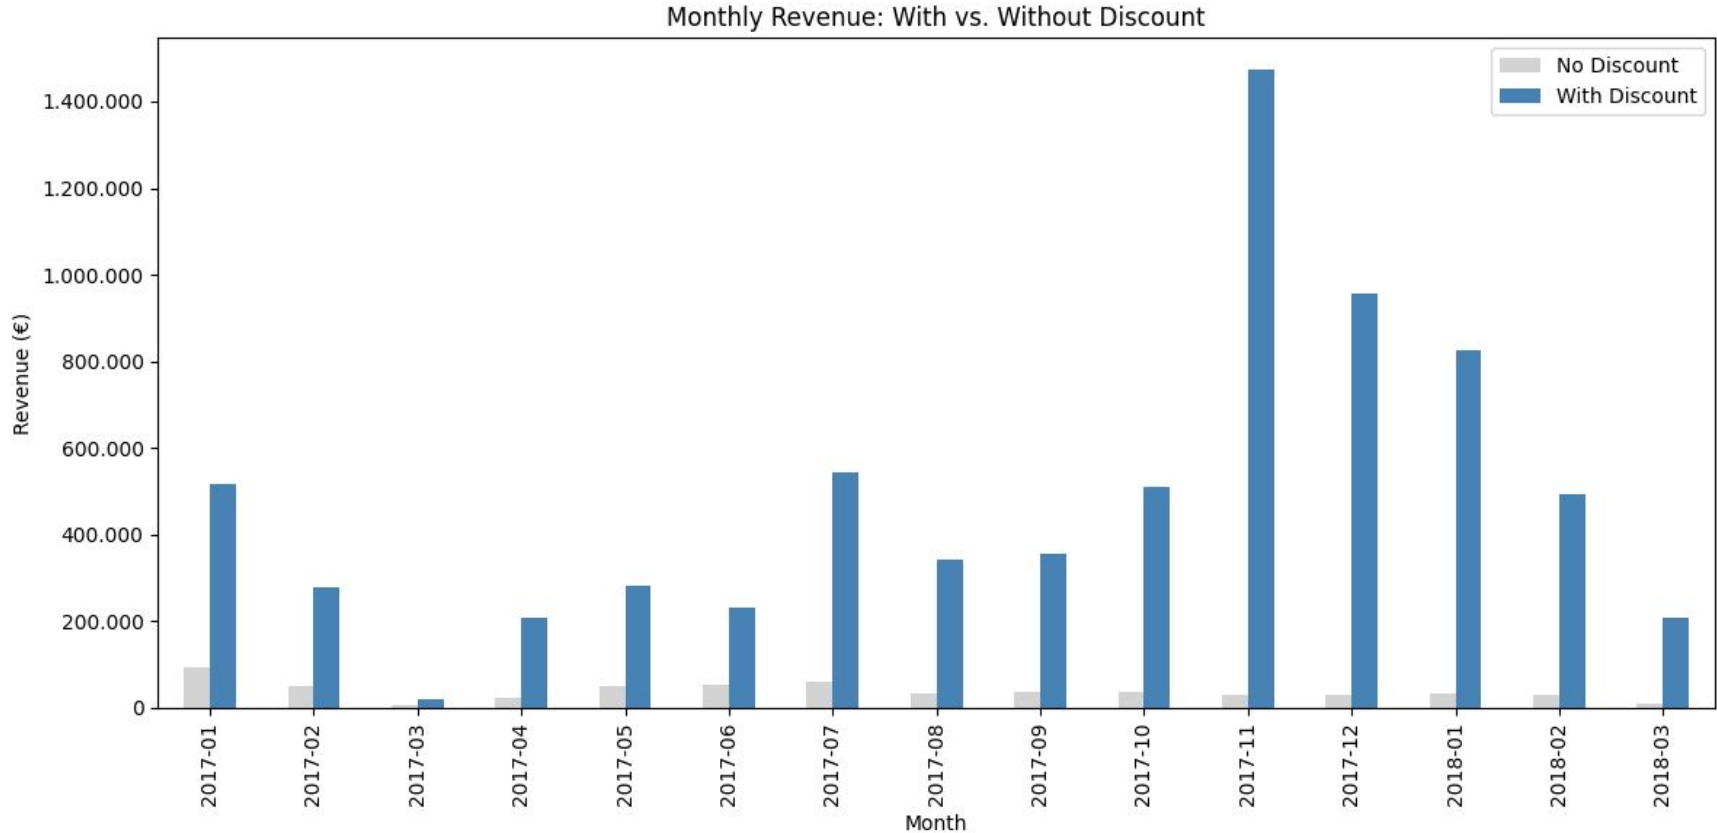

Most sold products are discounted

Share of Orderlines With vs. Without Discount

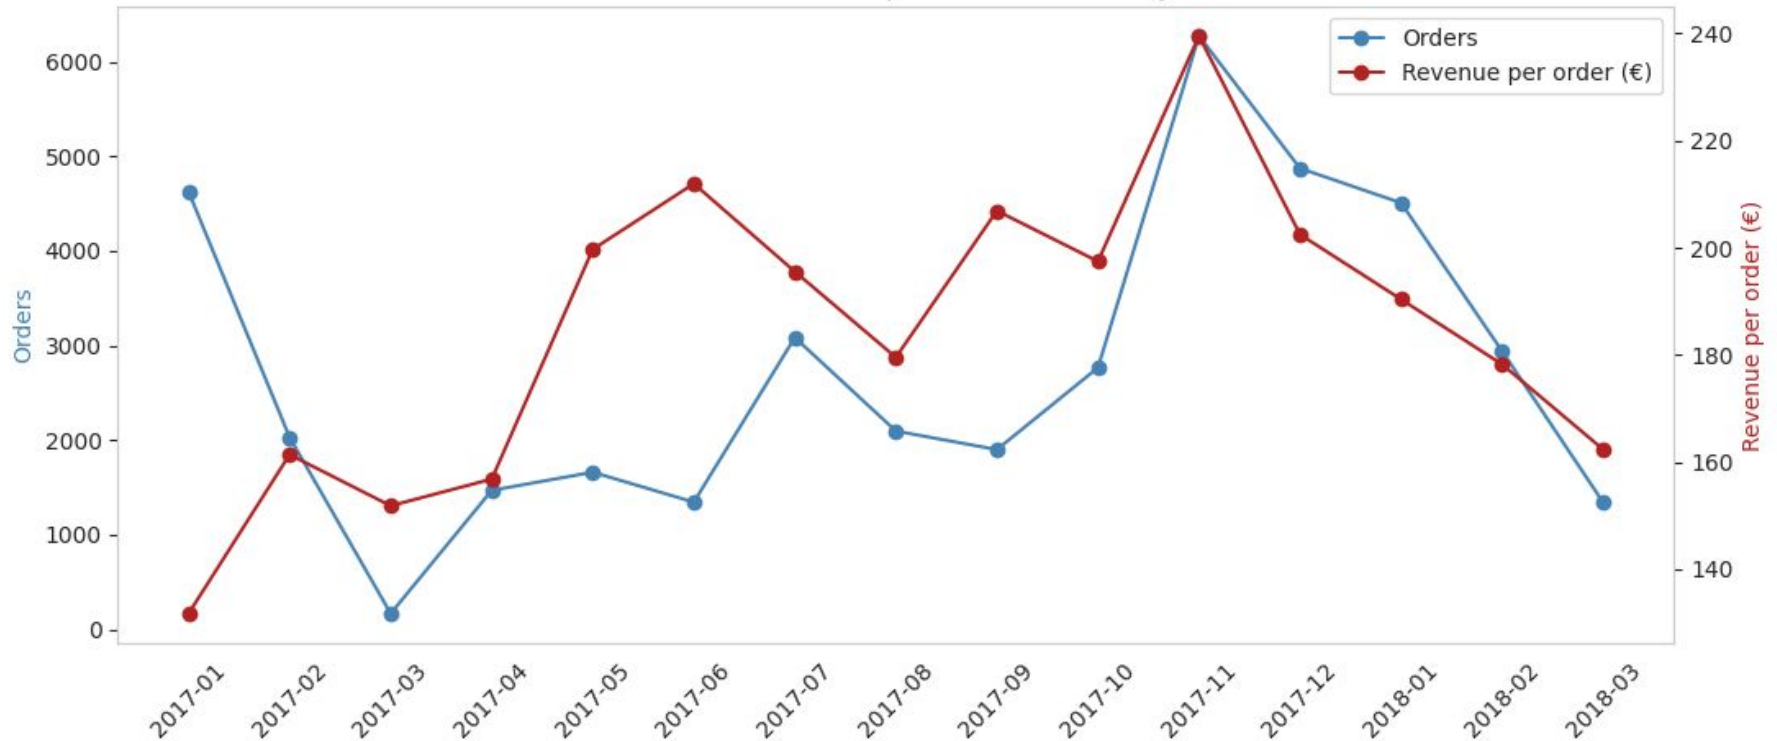

Most of the revenue comes from discounted products

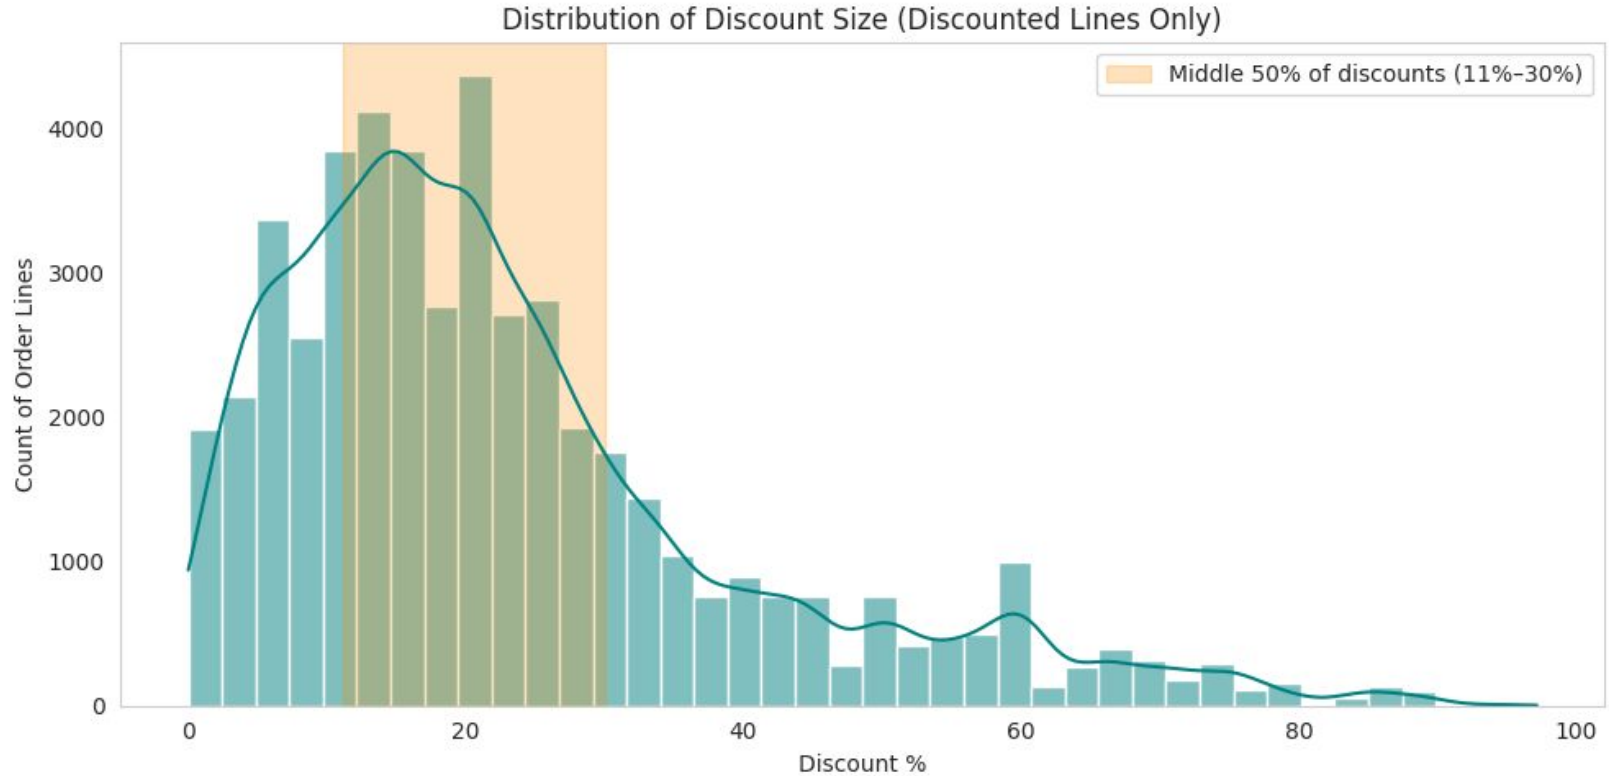

No decrease in revenue and increase in orders

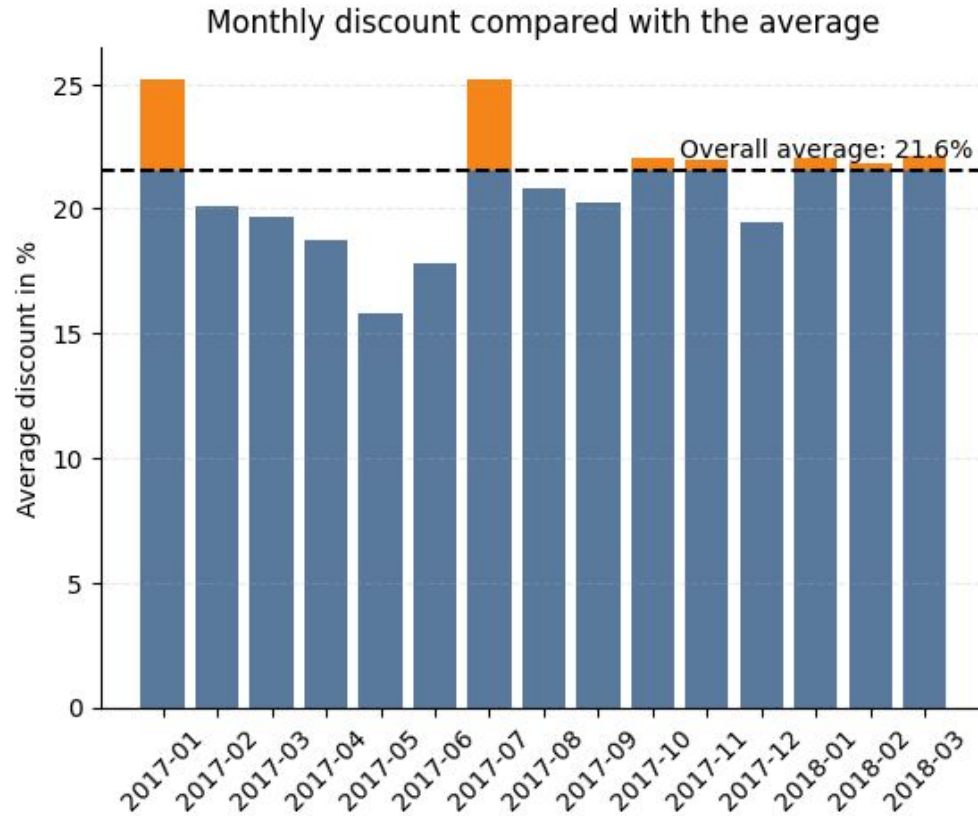

Orders vs Revenue per Order — monthly

Discounts are moderate

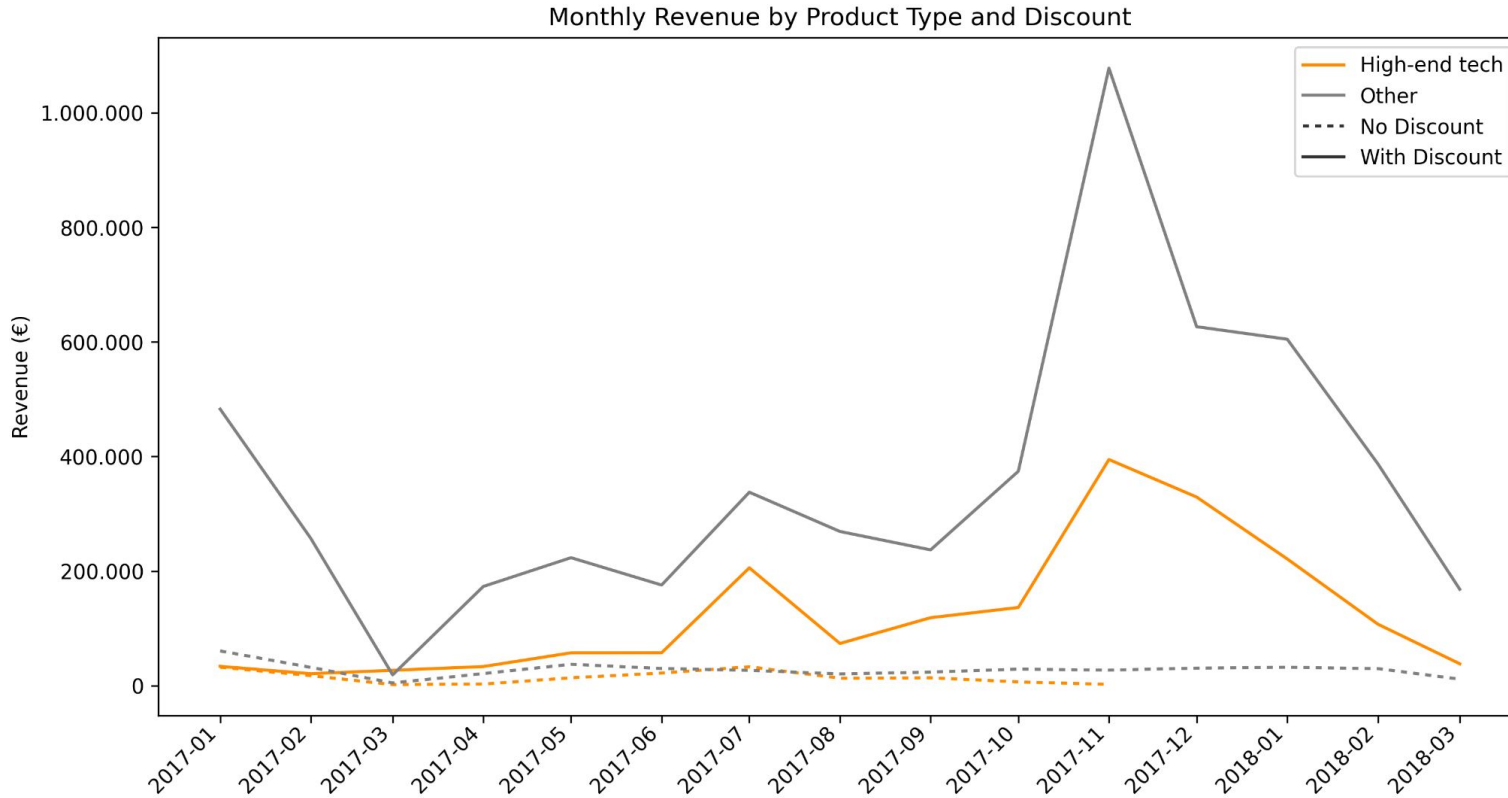

Discounts are moderate

High-end tech:

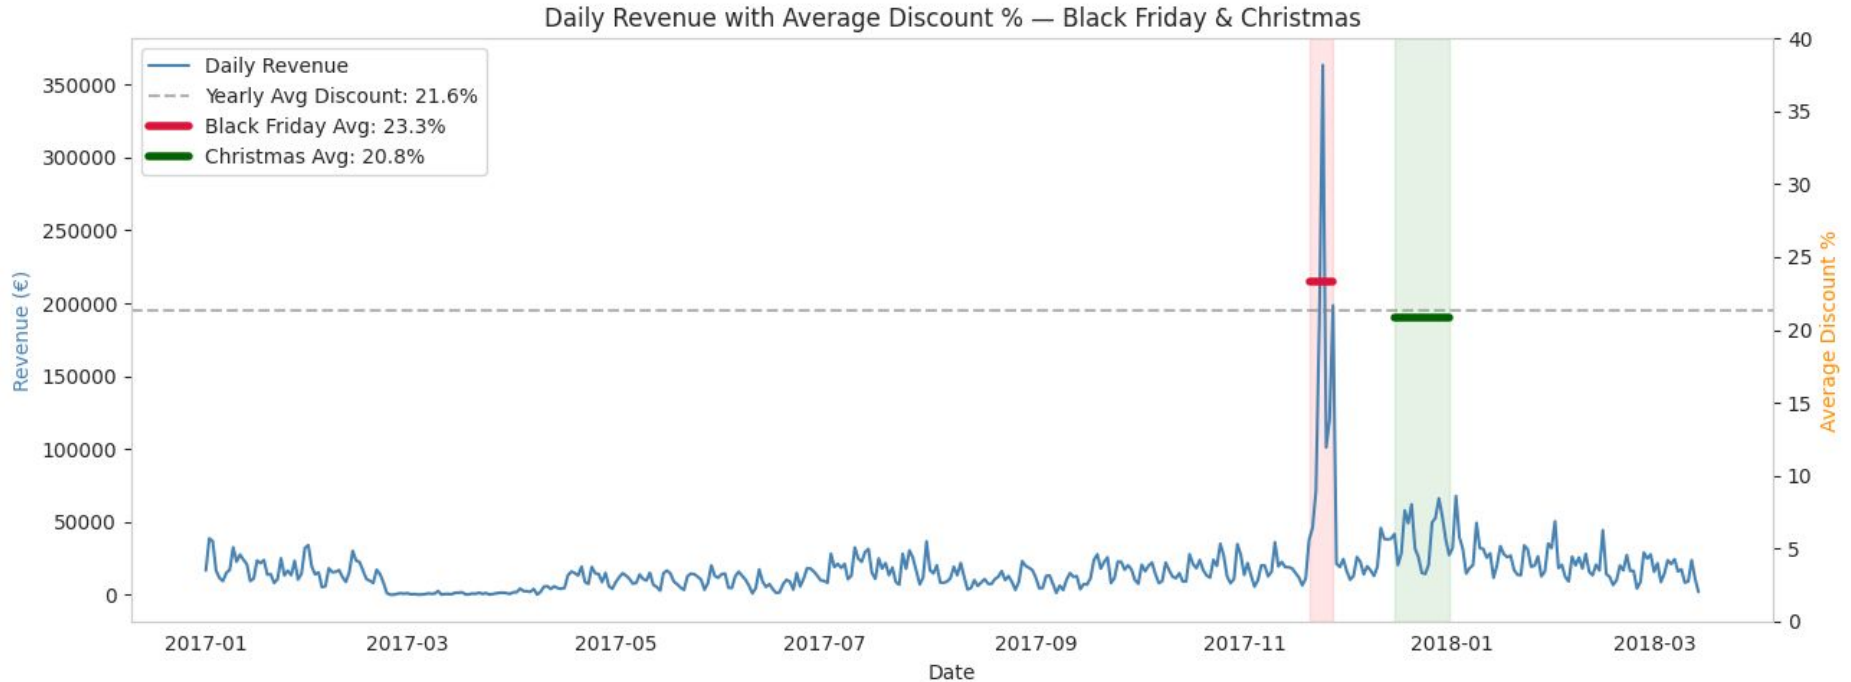

More revenue when discounted, but not much revenue altogether.

High-end tech:

Desktops
Laptops
Smartphones
iPads
iPods

Customers buy seasonally but not because of discounts!

Sum up

Action points:

- Keep discounts around 20%
- To place ourselves in the quality segment, increase sales of high-end tech

Data improvements for future analyses:

- Missing data
- Customer data
- Human-readable product categories

Thank You...
